NOTES

FUNCTIONAL | DIMMERS

Designed for seamless integration into your existing electrical setup, our Build-In Dimmers blend effortlessly with any decor, offering a sleek and modern touch to your living space.

CALEX DIGITAL CORD DIMMER 230V (LED 18W) - (GLS 32W)

CHARACTERISTICS

- Can easily be installed
- Suitable for dimming led lights 3-18 Watt
- Suitable for dimming other dimmable lights 10-32 Watt
- Suitable for dimming low voltage led lamps combined with Calex dimmable led driver 10-18 Watt
- Trailing edge dimmer ('RC'), 230V/50Hz
- Dimensions 52 x 100 x 18 mm

Art. #	EAN-13 code	Product name
176386	8712879138556	Digital Cord Dimmer

WHITE COVERS FOR DIMMERS FLUSH MOUNTING 230V (LED 70W) - (GLS 150W)

CHARACTERISTICS

- Dimensions 84 x 85 mm

Art. #	EAN-13 code	Product name
176373	8712879139805	White cover with knob for Calex RC Dimmer
176383	8712879146476	White cover with two knobs for Calex Duo RC Dimmer

BUILD-IN WALL DIMMERS FOR LED TRAILING EDGE DIMMERS ('RC'), 230V, 50HZ

This LED wall dimmer (3-150W/VA) is suitable for dimming of the following light sources:

- Dimmable (retrofit) LED bulbs (230V, max 70W)
- 12V Halogen bulbs combined with a dimmable electronic transformer (120W max)
- Low Voltage LED bulbs combined with a dimmable LED driver (120W max)

CHARACTERISTICS

- Trailing edge dimmer ('RC'), 230V/50Hz
- Dimmer has a soft start that prevents peak currents that can negatively influence the lifetime of LED bulbs.
- Due to the internal altering push switch, this dimmer can control a LED lamp in combination with a normal alternating switch (multiway switching)

Art. #	EAN-13 code	Product name
176382	8712879142003	Build-in Duo wall dimmer for LED
176399	8712879233749	Replacement caps for Calex RC Dimmers

BUILD-IN ROTARY WALL DIMMER FOR LED TRAILING EDGE DIMMERS ('RC'), 230V, 50HZ

CHARACTERISTICS

- Trailing edge dimmer ('RC'), 230V/50Hz
- Without neutral wire
- Noiseless dimming
- Optimal dimmability & light stability

Art. #	EAN-13 code	Product name
8901000100	8712879158073	Build-in Rotary wall dimmer for LED

How to install the CALEX build-in dimmers

APPLICABLE TO DIMMERS 176382

After safe installation, push the turn/push knob **1** to switch on the bulb. Turn the knob **1** to minimum value, entirely counter clockwise.

By means of the selection switch **2** the desired minimum brightness level (lowest dimming level) can be set (profile value 1, 2, 3 or 4).

By turning the knob **1** fully clockwise, the maximum brightness level of the bulb is demonstrated.

Also the maximum brightness level depends on the applied profile. In case of a stable light of the (led) bulb over the dimming range (from minimum to maximum brightness level) and if the dimming range is satisfying, the right profile was found for the applied (led) bulb.

OUTDOOR & PARTY SERIES

Look no further for shiny bulbs that match a festive mood and sensor lamps that light up every garden from dusk to dawn! Colorful outdoor party lights can add a vibrant atmosphere to your outdoor gatherings! The sensor bulbs are perfect for when you want your bulbs to automatically turn on when it gets dark.

FUNCTIONAL | INCANDESCENT

Go back in time and get that real Edison feeling with this series of light bulbs. An incandescent light bulb is a type of electric light source that produces light through the heating of a wire filament to a high temperature. The filament, typically made of tungsten, becomes so hot that it emits visible light as a result of thermal radiation. This process is often referred to as incandescence.
